RESOLUTION PROVIDING FOR A DISCOUNT ON TAXES.

Resolved by the Board of Aldermen of the City of Concord, as follows:

REPORT OF THE BOARD OF WATER COMMISSIONERS.

To the Honorable Mayor and Board of Aldermen:

We are calling your attention to the report of our superintendent, Mr. Percy R. Sanders, showing cash receipts and expenditures for the year 1929, and also statement of the bonded indebtedness showing the amount of bonds outstanding due on various dates from January 1, 1930, to July 1, 1947, amounting to \$216,000. The report reviews in detail extensions made during the year, and also during the year there was considerable new pipe line laid in Penacook to replace the old cement lined pipe, showing that 5,380 feet of new pipe was laid to replace the old.

The large expenditure of the year was the cost of extending the city water service to East Concord, amounting to \$56,438.41. While the revenue from the service extended to East Concord pays a small percentage in income on the cost of the extension, under the present conditions the Board felt that this difference could be absorbed in the income received in rentals from the water takers in the central part of the city. The extension of the water service to the residents of East Concord is very much appreciated by them, and ultimately it will have the effect of increasing the taxable value of the property in that section of the city. We consider that our superintendent did a very splendid job in laying the East Concord extension, keeping well within the appropriation, as the total cost of the extension was considerably less than the estimated budget.

While the expense of the extensions to the Plains, or Concord Heights, and East Concord are behind us, the Board has discussed for several years ways and means and the cost of more efficient high water service to that section of our city comprising Auburn Street, Ridge Road and the new development on the heights west of Auburn Street known as Rum Hill. We have had before us several plans for bettering the high service in these localities, and, while

we feel the importance of a high pressure system in this section of the city, we realize that it is going to mean the expenditure of quite substantial amounts. In due course this whole matter will have the careful consideration of the Water Board.

The budget for the year 1930 calls for the expenditure of substantial amounts in relaying old cement lined pipe and also in extending the city water service at Concord Heights down the South Pembroke Road to the airport and to a group of houses to the south of the airport and adjacent to the new city dump. This extension calls for the laying of about 4,100 feet of pipe.

The financial year 1929 closed satisfactorily with good working balances on hand somewhat in excess of former years, due partly to the bond issue of last year, but the excess balances carried forward will enable us to carry out some additional work needed to be done in various parts of the city during 1930.

Respectfully submitted,

HARRY H. DUDLEY, *President.*

Considerably more than the usual amount of work has been done this year in relaying and extending the system.

In South Main Street, the 4-inch main laid in 1894 has been replaced by a 6-inch line which has been further reinforced by the extension of a section of 8-inch pipe in Broadway from Rockingham to Wiggin which connects with the South Main Street pipe. Four hydrants have been set below Wiggin Street.

In Penacook, a three-year program has been commenced to relay the cement-lined pipe laid in 1887. In Main Street, the 12-inch cement-lined main was replaced by the same size of cast iron. In High Street, the 6-inch main was replaced by 10-inch. All services were relaid at the same time.

The high service system has been extended to East Concord in accordance with plans drawn up by Metcalf and Eddy, the cost of which is given in this report.

At the Merrimaack River, the crossing was made on steel work built onto the east side of the bridge. A box, two feet inside measurement, was built around the pipe and the whole space filled with coarse granulated cork, similar to the crossing on Bridge Street.

A 100,000-gallon water tower was erected on a lot purchased from Mrs. Ross W. Cate on Shawmut Street, the purchase price of the lot being \$500. Bids for the tank were called for from the Chicago Bridge & Iron Works and the Pittsburgh-Des Moines Steel Co.; the bid of the Chicago Bridge & Iron Works being \$12,650, and of the Pittsburgh-Des Moines Co., \$13,100 above the foundation. The bid of the Chicago Bridge & Iron Works was accepted and the tank was erected in accordance with the plans and specifications.

Bids for the foundation piers were called for from local contractors, and the bid of W. G. Elliott at \$910 was accepted.

The flow line of this tank has been placed at the same level as the high water mark in the high service reservoir, and is 155 feet above the top of the foundation.

The purpose of this tank is to hold in readiness for East Concord a greater amount of water in case of fire than could be supplied by a long line of 8-inch pipe; also in case of any break on this line, the East Concord residents can be supplied with water until the break is repaired.

Hydrants were located approximately 500 feet apart through the thickly settled part of the village.

All the construction work, with the exception of the bridge crossing and tower erection, was done by this department.

The electrically-driven centrifugal pumps are in good condition and are operated alternately. The average amount pumped daily for 1929 was 1,131,099 gallons, measured by the Venturi meter. At the present time, the use in the Plains District averages 6,500 gallons daily, and in East Concord District, 8,000 gallons.

The reservoir was cleaned early in the spring. Aside from the usual growth on the bottom of all ponds and

reservoirs, there was nothing objectionable found. In order to do this work, the reservoir was out of commission about seven hours; during this time, the pressure was kept up by pumping directly into the mains.

Respectfully submitted,

PERCY R. SANDERS,

Superintendent.

FIRE DEPARTMENT.

REPORT OF CHIEF ENGINEER.

To the Board of Aldermen:

In accordance with the requirements of the city ordinance, I herewith submit for your consideration the report of the Fire Department for the year 1929.

The department responded to 91 bell alarms and 433 still alarms.

In addition one fire, entailing loss, occurred for which no alarm was given.

ALARMS.

	<i>Bell.</i>	<i>Still.</i>	<i>No Alarm.</i>	<i>Total.</i>
Precinct,	32	284	1	317
Penacook,	16	95		111
East Concord,	0	16		16
West Concord,	8	27		35
Plains,	35	11		46
Totals,	91	433	1	525

This report will be found to contain statements in detail embracing the amount of expenditures, and a complete roll of the department with residence and occupation of each member.

The number of alarms responded to exceeded all previous records, accompanied by increase in loss over that of the preceding year.

It is saddening to note that notwithstanding the admonitions emanating from the press of the nation and fire department officials, the literature disseminated by the National Board of Underwriters, the observation of fire prevention

week throughout the country, the element of carelessness remains predominant.

Among fires resulting from carelessness during the year in this city may be cited the following causes:

Use of gasoline to accelerate fire in kitchen stove.

Cleansing clothing with gasoline with open flame in same room.

Children given free access to matches.

Throwing cigarette stubs wherever most convenient.

Storing oily rags and greasy overalls, inviting spontaneous combustion.

Neglected chimneys.

To the loss sustained through fires from these causes throughout the country must be added the loss by unavoidable and incendiary fires.

Small wonder that from four to five hundred millions of dollars worth of property goes up in smoke annually, not to mention loss of life.

For the second consecutive year the department report is marred by fatalities.

The fire at Rumford Avenue, August 16, resulted in the loss of six human lives. One death resulted from the Durgin Lane fire November 30.

The apparatus, in the main, is in good condition but the combination car at West Concord, the fire alarm repair truck and the Chief's car must perforce be replaced in the near future.

The fire alarm systems in the Precinct and at Penacook are working in a satisfactory manner. Repairs have been attended to as needed.

One public and one private box was installed during the year.

There are several petitions for boxes awaiting action of your honorable body.

I respectfully recommend the purchase of two thousand feet of hose and the addition of at least one man to the permanent force.

During the month of October I was privileged by your

honorable body to attend the Convention of the International Association of Fire Chiefs held at Birmingham, Ala., a report of which I rendered at that time. I am deeply appreciative of the favor conferred and wish again to return my thanks for the opportunity afforded me to learn.

Respectfully submitted,

W. C. GREEN,
Chief Engineer.

REPORT OF THE ENGINEERING DEPARTMENT.

CONCORD, N. H., December 31, 1929.

To the Board of Mayor and Aldermen:

GENTLEMEN: Herewith is submitted the thirty-seventh annual report of the Engineering Department.

An itemized account of all work and expenditures is kept on a card system, which we will be pleased to show and explain to all interested parties.

Fifty-three plans and 2,684 blue prints were made; 12,217 feet of grade stakes were set; 600 transfers of property were recorded; 0.506 miles of streets were laid out in 1929, bringing the total mileage of streets and roads in the entire city up to 178.171 miles.

The deed book of Blossom Hill Cemetery showing transfers of lots was brought up to January 1, 1930.

The work done under the supervision of this office is: general engineering, construction and maintenance of sewers, building inspection, plumbing inspection and examining of plumbers.

An interesting fact is, that out of every dollar raised by taxation, only \$0.0087 of it is used for the maintenance of the Engineering Department, and we are closing the year with an unexpended balance of \$0.53.

It would take up too much space to outline in detail the amount of work done in this office, but I assure you we have been busy handling the work assigned us by your government, heads of departments and citizens, which we trust has met with their approval.

The employees of this department have been: Edward E. Beane, assistant engineer; C. Fred Moulton and Paul Chattock, rodmen, and Frances Richardson, clerk, all of whom have rendered valuable service to the city.

For the support and co-operation of your Board, the heads of departments and citizens of the city, I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG,
City Engineer.

REPORT OF THE BOARD OF HYDRANT COMMISSIONERS.

CONCORD, N. H., December 31, 1929.

To the Board of Mayor and Aldermen:

GENTLEMEN: The twenty-fourth annual report of this board for the year 1929 is herewith submitted.

During the year several meetings of the Commissioners were held, and it was voted to recommend to the Water Board that 37 new hydrants be installed. All of these hydrants were installed during the year.

Respectfully submitted,

FRED W. LANG,
W. C. GREEN,
P. R. SANDERS,

Board of Hydrant Commissioners.

REPORT OF THE BOARD OF EXAMINERS OF PLUMBERS.

CONCORD, N. H., December 31, 1929.

To the Board of Mayor and Aldermen:

GENTLEMEN: The thirtieth annual report of this board is herewith submitted.

The membership of the present board is as follows: Arthur W. Brown, an examined master plumber; Walter C. Rowe, M.D.; and Fred W. Lang, city engineer. Mr. Brown is chairman of the board, and Fred W. Lang, clerk.

One application for journeyman's license, and three for master's license were received.

Four meetings of the board were held, all of the applicants were examined, and three passed the required examinations; one failed to complete examinations.

There are four classes of plumbers on the register, and are listed as follows:

Total number registered masters,	8
Total number registered journeymen,	2
Total number examined masters,	31
Total number examined journeymen,	21

Respectfully submitted,

ARTHUR W. BROWN,
WALTER C. ROWE, M.D.,
FRED W. LANG,

Board of Examiners of Plumbers.

REPORT OF THE PLUMBING INSPECTOR.

CONCORD, N. H., December 31, 1929.

To the Board of Mayor and Aldermen:

GENTLEMEN: The fifth annual report of the plumbing inspections in the city of Concord, handled through the office of the city engineer, is herewith submitted:

There have been 190 permits issued for new work, against 194 for 1928, 235 for 1927, 210 for 1926 and 156 for 1925.

There were 390 inspections made.

It is pleasing to the inspector to report that there has been very few complaints of evasion of the plumbing rules, and these being of a minor nature.

A record is kept in the office of the city engineer of the various plumbing jobs, showing the layout of the work, date of completion, and the names of the parties doing the work.

The plumbers of Concord, taken as a whole, are expert workmen, and it has been a great pleasure to your inspector to work with them.

Respectfully submitted,

FRED W. LANG,
Plumbing Inspector.

REPORT OF THE SUPERINTENDENT OF STREETS.

To the Board of Public Works:

I have the honor to submit herewith my annual report for the year ending December 31, 1929.

The work of the department embraces the construction and maintenance of streets; the collection of garbage; the construction of sidewalks and bridges and the care of trees.

In the superintendent's office a complete record of all purchases, expenditures and detailed costs are maintained for reference.

FINANCE.

The funds for work in this department are received from the annual budget and a bond issue for the construction of bridges and concrete roads.

APPROPRIATIONS.

	<i>Appropriations.</i>	<i>Earnings.</i>	<i>Expended.</i>	<i>Balance.</i>
General Maintenance,	\$217,080.63	\$5,911.24	\$222,991.87	
Garbage,	36,974.39	249.16	37,223.54	\$.01
Trees,	6,106.96	101.97	6,208.93	
Hopkinton Road Bond,	55,066.60		51,614.72	3,451.88
Bridge Bond,	20,000.00		14,397.73	5,602.27

CONSTRUCTION.

Curb reset, paving blocks relaid and grouted with cement on Pleasant Street extension.

Concrete curb constructed on Main Street, Ward 1, to conform to new grade of street which will be repaired another year.

Hopkinton trunk line from junction of Warren and Pleasant Streets to Concord-Hopkinton town line completed with

concrete, the state and St. Paul's School paying a part of the expense.

Bridge No. 20 over Hackett Brook and bridges on Abbott and Sewells Falls Road built with reinforced concrete.

Bridge over Soucook River at the Concord-Pembroke town line rebuilt with reinforced concrete, the state and town of Pembroke paying their share of the total expense.

Graded roadway and laid Topeka pavement at new High School.

Corrugated iron pipe laid to replace broken tile and stone culverts.

Concrete and tar sidewalks and driveways laid in various parts of the city.

MAINTENANCE.

Trunklines.—Roadways on trunk lines patched, shoulders graded and tarred, sight lines improved, the state paying one half the cost.

Bridges.—Floor system of Lower bridge over the Merrimack River was repaired. While I feel that all recommendations should be made to the board in regular meeting, the condition of this floor system is such that, in my judgment, a new floor should be constructed or new bridge built at the earliest possible moment.

Completed the replanking and laying of traffic treads upon bridge over the Merrimack River on Bridge Street.

Constructed bridge on road from River Road to Island over outlet from Contoocook River.

A gas roller was added to our equipment the past year.

Grading.—Roads have been graded, road machines run, bushes cut and guard rails built on outlying roads.

Wages.—The same rate of wages for labor, trucks and teams was maintained as last year.

Bituminous Surface.—The open winter caused some of our streets to break up so that another application was necessary, thus following our policy of improving our graded streets with surface applications of tar and asphalt.

Garage and Stables.—One Chevrolet sedan was added to our equipment. A number of our trucks having come to a place where it does not pay to have them repaired, and the loss of our tractor in being demolished by train at East Concord, has made it necessary to hire trucks and tractors.

Our horses are all in good condition, and no changes have been made.

Snow Removal.—Snow removal was taken care of as in the past years, the city being divided into fourteen truck, fourteen sidewalk, and two tractor sections.

The business section was cleaned with trucks and teams by hand labor.

Cleaning Streets.—The motor-driven flusher was used with the help of hand sweeping.

Garbage.—The contract of Mr. Holt for the collection of table garbage has been continued and, as in former years, ashes and rubbish have been collected with our own forces.

Land that was bought on the Plains for the disposal of refuse has been fenced in part.

Trees.—We did not set out as many trees this year on account of the large number of stumps to be removed, but plan to make up for this next year. The cleaning of land and the planting of seedlings was continued.

Trees were taken down, trimmed and moth nests removed.

General.—Swimming hole at Soucook River, hockey rink and toboggan chutes built under direction of Mr. Kennedy of the Playground Committee.

Town line signs have been placed on lines of adjoining towns.

The reservoir in Court House yard was filled up on recommendation of the chief of the Fire Department.

Coasting and parking signs were made and painted for the Police Department.

Sand has been used on hills in the winter months, complying with demands from our people.

Road closed signs have been placed on fifteen roads which in our opinion are unfit for travel.

Land was purchased of I. T. Chesley, thus giving us a good supply of gravel for a number of years.

CONCLUSION.

I acknowledge my appreciation of the help given by Mayor Brown, members of the board and employees of the department.

Respectfully submitted,

O. W. HEAD,
Superintendent of Streets.

REPORT OF THE SEWER DEPARTMENT.

CONCORD, N. H., December 31, 1929.

To the Board of Public Works:

GENTLEMEN: The nineteenth annual report to your board, showing work done under the supervision of the Engineering Department, for the year is herewith submitted.

Sewers were constructed in the following streets:

Dunklee Street,	285 feet
Yale Street,	242 “
School Street,	1201 “
River Street,	350 “
Vernon Street,	369 “
North State Street,	100 “
Harvard Street,	108 “

Seventy-eight catch basins were built and connected; 32 manholes were built other than those on construction jobs.

There were 74 private pipe plugs and 33 main line plugs which were immediately removed.

Every sewer and catch basin that was granted has been completed.

A detailed account of every job, bill, etc., is kept in this office.

The department has three Chevrolet trucks and one Sullivan Air Compressor, and a complete equipment of tools, all of which are in excellent condition. The two department sheds were painted and cement concrete floors laid. The yard has been covered with crushed stone. A coal tar sidewalk has been laid across the entire length of the property on Pleasant Street. An addition of two stalls was made to the heated garage.

The department maintains 53.643 miles of main sewers,

approximately 4,000 house connections and 1,400 catch basins.

For every dollar collected by taxation only two cents of it is expended by the Sewer Department for construction, repairs and maintenance of the sewer systems of the entire city, as well as the maintenance of all property, trucks and equipment.

Our regular employees of the department have been: William H. Murphy, foreman; Joseph Morgan, Richard Morrill, James J. Berryman and Wilbur Kendall, assistant foremen. With the exception of Joseph Morgan, who died July 23rd this year, after a brief illness, the personnel of the department is as above stated. These men are skilled workmen, and as long as they are employed you may feel assured that the sewers will be well taken care of.

During 1929 there were installed electric street lights as follows: 5—200 C.P.; 40—60 C.P.; making the total number of lights in operation December 31, 1929, as follows: 143—600 C.P.; 209—200 C.P.; 566—60 C.P.; 549—40 C.P.

For the many courtesies extended me by the citizens and your board, I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG,
City Engineer.

REPORT OF THE BUILDING INSPECTOR.

CONCORD, N. H., December 31, 1929.

To the Board of Mayor and Aldermen:

GENTLEMEN: The sixth annual report of your building inspector is herewith submitted.

There were 111 building permits issued.

There were 110 buildings completed.

There were 21 signs erected.

The inspections have taken a great amount of time, and I feel that the code has been lived up to cheerfully by the contractors.

For the courtesy extended me by your board, the contractors and citizens, I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG,
Building Inspector.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

CONCORD, N. H., Jan. 27, 1930.

To the Mayor and Board of Aldermen:

For the details of library activities, you are respectfully referred to the accompanying report of our city librarian, Miss Blanchard.

The funds available for the construction of a new library are approximately \$133,500. On the debt created for the purchase of the Armenia White property, there has been paid in 1929 the sum of \$7,500, leaving still due a balance of \$22,500 which, as you will recall, is being liquidated at the rate of \$7,500 a year.

Respectfully submitted,

WILLIS D. THOMPSON,
President of the Board of Trustees.

REPORT OF THE CITY LIBRARIAN FOR 1929.

To the Board of Trustees of the Concord Public Library:

GENTLEMEN: There has occurred but little to make this annual report differ from the preceding one. We have met with a slight decrease in the number of books given out, but desk circulation is a matter of fluctuating gains and losses, and 1930 may swing us back to a higher figure. It should be borne in mind, however, that a growing number of circulating libraries in town threaten our patronage.

Though the 1929 count of volumes loaned was 88,833, about 1350 less than in the foregoing twelvemonth, on the other hand, the worth-while reference room attended to 650 more inquirers than went there for information in 1928. There is a wide range in their questions; this person, making a fancy costume, wants to know how a puritan child's cap was tied in the back; another, has been told to find out how smoke is weighed; a third patron needs material for a debate: "Resolved, That a Christian should not vote."

Our expense account for 1929 ran along its usual lines; the items of outlay were as follows:

Salaries and labor,	\$6,176.72
Books and periodicals,	1,914.08
Binding,	553.40
Printing,	143.45
Fuel and light,	888.40
Incidentals,	510.10
	<hr/>
	\$10,185.45

(This is \$133 less than in 1928.)

As regards the gain to our shelves:

We have bought 1,001 volumes.

We have had given 44 volumes.

We have had bound 25 volumes.

We discarded, because they were worn out or outdated, 411 volumes. The resulting net increase of 639 brings the number of volumes now in the Library to 38,782.

Our most important purchase was the new fourteenth edition of the Encyclopaedia Britannica. The bulletin board notice, advertising that we had this set, led a very small boy to ask if he could "take it out." It was his first call at the Library. Which would have been happier, he or we, if we had had a children's room to lead him to!

For fifteen years we had not taken a registration of borrowers; our list of the same had become very incorrect, owing to deaths and removals from town; therefore, on May 1st, we undertook its revision. Parenthetically we appreciated having a 1929 City Directory to refer to. New borrowers were 737, a somewhat larger number than the ordinary annual influx.

In Ward 3 some of the residents, especially the Rev. and Mrs. Franklin Thompson and Mrs. Levin Chase, have interested their community to fit up a library room where books and magazines can be seen and taken out. It is centrally located, is open two afternoons a week and has had a flood of patronage. This Library congratulates the West Concord people upon their enterprise and will gladly cooperate in all ways feasible. We have made a loan to this new room of 80 volumes which have circulated 200 times. Those instrumental in starting the good work hope the West Concord children in particular will benefit from having a reading-place to resort to.

It is hoped that during 1930 there can be something similar done for Penacook, whereby there may be a supply of books handy for Ward 1 borrowers.

Annoyance from misbehaving school pupils of the higher grades was a feature of our autumn, and Halloween saw the signs relating to opening hours and to dogs torn from the outside doors; the printed notices are continually being walked off with, but this time their frames were broken and thrown away. Three novels displayed on our new book rack have recently been stolen—a mighty mean thing for

anybody to do, as it deprives other persons of their rightful supply of fresh publications to look over.

During 1929 we have continued to send books to schools whenever asked to do so by the teacher. Several hundred volumes have been loaned to the Parker, Dewey, South End and Iron Works schools. We observed Book Week, in November, to the best of our ability. For the several church-reading contests going on briskly, we aim to buy freely the books on their lists. But all these are minor happenings, a matter-of-course in a present-day library. There was, last summer, the large issue, concerning the sale of some of our lot of land, but that is a subject extraneous to the report of the librarian.

In September the New Hampshire Library Association met in Concord very successfully, having a three-day program.

We miss today Mr. W. W. Flint, who for 44 years was trustee from Ward 7, but who ceased automatically to hold that position upon his moving into the city proper last fall. Mr. Flint was clerk of your Board for 37 years, and his minutes of proceedings were models in penmanship, in conciseness and clearness of expression. His long and sincere interest in the Library's welfare led him to an attendance at your meetings which no blizzard was allowed to prevent, and also to a more laborious clerical service when any crisis in the Library's history necessitated the tactful and convincing and persuasive writing of documents to go to the "powers that be."

Respectfully submitted,

GRACE BLANCHARD,

Librarian.

REPORT OF THE CITY SOLICITOR.

AS OF DECEMBER 31, 1929.

There was only one change in the litigated cases to which the city was a party, as compared with one year previous. During the year the Superior Court made a decree confirming the discontinuance of the bridge across the Soucook River on the old Daniel Webster Highway. There is still pending, however, the petition for the assessment of land damages for the discontinuance.

During the year the solicitor has attended to at least the usual volume of the ordinary business of the office, having to do with advice and assistance to various city officials and other officers of the City Government. The solicitor has been freely called upon, as he desires to be, and has attempted to give effective assistance wherever desired.

A part of the solicitor's business is attending to the passing of all deeds to which the city is a party, and examination of all titles to real estate to be acquired by the city. The volume of this work in 1929 was considerably more than common.

ELWIN L. PAGE,
City Solicitor.

REPORT OF THE PARK COMMISSIONERS.

To the Mayor and Board of Aldermen:

In addition to the regular routine work of maintaining the city parks, the fence along the north side of Rollins Park has been carried to the western boundary and another section of fence has been added to the White Park line on White Street.

The Memorial Arch on Main Street was turned over to the care of the Park Commission, and the intersection of Center and Washington Streets was cleared and planted to shrubbery.

The West Garden was overhauled and new evergreens and shrubs were set out, adding much to the effect.

The collection of water fowl at White Park has been a source of great appreciation, and has considerably increased in numbers. More ducks are to be added to the Rollins Park collection.

Of the several deer that have occupied the deer enclosure only one now remains, the others having died or are a.w.o.l. If any more deer are to be secured the fence will need substantial repairs.
